## **PetSafe® Brand Introduces an Affordable Way to Provide Your Pet with Fresh, Filtered Water**

**KNOXVILLE, Tenn. (September 15, 2015)** – Pet lovers looking to encourage their pet to drink more water can do so affordably without sacrificing style or function with the new [PetSafe® Current Pet Fountain](#) from [PetSafe](#) brand, an industry leader in the development of innovative pet behavioral, containment and lifestyle product solutions.

The PetSafe Current Pet Fountain comes in a trendy Orchid color that will brighten up any room and is available in three different sizes – small (40 oz.), medium (80 oz.) and large (120 oz.) – to accommodate pets of all sizes and multi-pet households.

Keeping pets properly hydrated helps prevent urinary and kidney diseases and also speeds up recovery for sick and injured pets. The PetSafe Current Pet Fountain uses an activated carbon filter that removes bad tastes and odors from tap water, encouraging pets to drink more of the fresh water. The low-voltage submersible pump constantly circulates water through the bowl and filter, keeping it fresh and appealing to pets all day long.

Heather Owens, Category Manager – Water and Feed Solutions for PetSafe brand, believes the new Current Pet Fountain is a great starter fountain for many pet owners.

“Some pets that are used to drinking out of a bowl may be hesitant to approach fountains with free-falling water,” Owens said. “Since the Current Pet Fountain more closely resembles a plastic water bowl, it’s a great way for you to provide your pet with a constant source of fresh, filtered water, whether you’re home or away.”

The PetSafe Current Pet Fountain’s BPA-free plastic design comes apart for easy cleaning and is dishwasher safe. It also features handgrips on the side of the bowl for easy carrying and placement, as well as a snap-on lid to prevent accidental removal by curious pets.

The PetSafe Current Pet Fountain is priced at \$19.99 - \$39.99 depending on size and is available for purchase on [petsafe.net](http://petsafe.net).
