New PetSafe® Walk Along™ Outdoor Harness Makes Adventures with Furry Friends Easy

Versatile Harness Includes Zippered Pouch for Storage and Seat Belt Tether for Car Safety

KNOXVILLE, Tenn. — August 30, 2019 — [PetSafe® brand](#), a global leader in pet product solutions, is launching the [PetSafe® Walk Along™ Outdoor Harness](#) to help pet owners enjoy spending more time with their four-legged friends. Pet parents can store what they need in the zippered pouch and pups can safely travel to their next adventure with an added car seat tether. Active pet owners were top of mind when creating the new harness which includes a variety of unique features.

PetSafe® Walk Along™ Outdoor Harness is designed to keep dogs safe both inside and out of the car with a handle that doubles as a seat belt tether for rides to the dog park or during road trips. It also features a water-resistant zippered pouch on top to keep the necessities secure, such as wallets, car keys, phones or pet waste bags.

“Saddle bag harnesses can be bulky and often tricky when trying to even out weight on both sides,” says Krista Nixon, PetSafe® Toys and Behavior Category Manager. “The small pouch on top of the Walk-

Along™ Outdoor Harness eliminates the worry of adding too much weight that could cause strain on your dog.”

The PetSafe® Walk Along™ Outdoor Harness offers a standard and no-pull leash attachment option with padded chest straps to maximize comfort. Additionally, both color options, black and orange, contain reflective accents to provide outdoor visibility during dusk or dark.

The PetSafe® Walk Along™ Outdoor Harness is now available at www.petsafe.com and many U.S. pet retailers.
